

SPENCO™

LOVE YOUR FEET™

With over 50 years of innovation, Spenco stands strong in its evolving history of maintaining foot health. Born from sheer determination to disrupt the market Dr. Spence, who was known to run 40 miles a week, decided feet needed love too. From creating the first silicone gels for preventing ulcers to other foot health inventions the Spenco brand breathes forward thinking. The world is ever changing, we believe our products should follow suite. Tirelessly perusing current research, Spenco strives to put our best foot forward so you can Love Your Feet®.

Our mission is simple, keep the consumer top of mind. As we are currently sold in over 84 countries across the globe, quality products and customer service remain a 100% commitment. Insoles are our core business, but Spenco also provides foot care products, sports medicine and first aid products. Spenco is part of Implus LLC, a house of brands who focus on the active lifestyle.

Spenco® replacement Insoles are a significant upgrade compared to the replaceable sock liners that come with shoes.

- Better materials and technologies to increase performance and stability, offer lasting comfort and help relieve foot pain.
- Divided into different categories to fit regular volume shoes as much as low volume shoes and minimal shoes.
- Address the needs of specifics users.

All Spenco® Insoles are guaranteed for one year.

ACCEPTED

**AMERICAN
PODIATRIC
MEDICAL
ASSOCIATION**

Spenco® Insoles carry the APMA seal of acceptance. The APMA Seal of Acceptance Program recognizes products which have been found beneficial to foot health and of significant value when used in a consistently applied program of daily foot care and regular professional treatment.

**GROUND
CONTROL™**

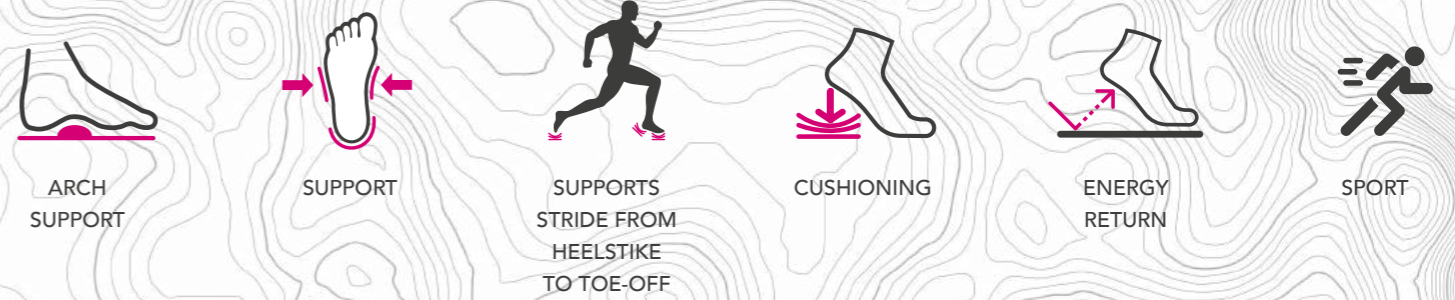

GROUND CONTROL™

By reducing excess material around the heel, Spenco Ground Control™ smooths out your foot-strike. With updated learning about the mechanics of the foot, Ground Control™ seeks to work with the foot, not against it. Neutrally positioned center-of-pressure design that centers the foot and reduces pronation forces.

GROUND CONTROL™ LOW / MEDIUM / HIGH

- 1 - Reduced pronation with decoupled heel
- 2 - Hybrid Impact and Energy return Zones
- 3 - Designed for Active Individuals

GROUND CONTROL LOW™

**TOTAL
SUPPORT™**

TOTAL SUPPORT™

Anatomy most rigid replacement insoles offer some motion control and stability. Spenco® Total support® insoles feature our patented 3-POD™ modulation system: by positioning pods with varying degrees of hardness beneath key areas of the foot, Total Support® Insoles change the ground forces reaching the foot during activity. This tunes the ride while helping to reduce over-pronation - a common problem that causes foot, leg and back pain.

TOTAL SUPPORT™ ORIGINAL™ / THIN™ / MAX™

- 1 - 3-POD™ Cushioning System helps prevent over-pronation.
- 2 - Cushioned forefoot crash pad.
- 3 - Low-friction top cloth helps prevent blisters.
- 4 - Deep heel cup and semi-rigid arch support.
- 5 - Wear moldable
